What is a Megatrons 1MW battery energy storage system?

MEGATRONS 1MW Battery Energy Storage System is the ideal fit for AC coupled grid and commercial applications. Utilizing Tier 1 280Ah LFP battery cells, each BESS is designed for a install friendly plug-and-play commissioning. Each system is constructed in a environmentally controlled container including fire suppression.

Who is enerlution battery?

As one of the most professional energy storage companies in China, Enerlution Battery has been specialized in LFP battery manufacturing for 7 years, including commercial battery storage systems and household energy storage system, we also can provide bms solution. They are all manufactured according to the strictest international standards.

What is a meg-1000 power system?

MEG-1000's enhance the flexibility, economy, and safety of traditional power systems and significantly improve renewable energy access. The 1MW BESS systems utilize a 280Ah LFP cell and air cooling system which offers a better price to power ratio.

Who is LFP battery & BMS energy storage?

The core team of us has been engaged in lithium battery applications and energy storage system integration for more than 15 years, with rich industry experience. Get info about LFP battery and bms energy storage. Welcome to contact us, we are one of the best energy storage companies.

Why should you choose a Meg 1600 battery?

Utilizing string architecture topology vs traditional centralized PCS design, the MEG 1600 allows for better system availability and lower maintenance downtimes. The 8 PCS by 8 battery string configuration ensures better charging efficiency and the potential for less circulating current found in some centralized BESS designs.
