

60V 2kw to 220 inverter

How do I get 220V from a 110 volt inverter?

You would have to get a step-up transformer(perhaps auto-wound for lower costs) to get 220 from a 110 inverter. Re: 220v from two inverters? Aloha,Can I parallel two of the same MSW inverters @110v each and get 220v single phase? If so,then would I tie the two neutrals together? Reference my system below. thanks
