New Energy Storage Product Launch Plan

What is the implementation plan for the development of new energy storage?
In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

What is the new energy storage action plan?
The new action plan,grounded in the nation's dual carbon goals,aims to grow the national new energy storage fleet to 180 GW by 2027. It responds to the urgent need for flexible energy regulation amid rapid renewable energy expansion.

Will China develop new energy storage systems between 2025 and 2027?
BEIJING,Sept. 12 -- China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027,amid efforts to support green energy transition and ensure the stability of new-type power systems.

What is China's new energy storage plan?
The plan said that the new-energy storage industry is a key source of support for advancing the construction of a manufacturing powerhouse and promoting the efficient development and utilization of new-energy resources. By 2027, China aims to cultivate three to five leading enterprises in the ecosystem.

What is MIIT's new energy storage plan?
The plan, jointly issued by eight departments including the Ministry of Industry and Information Technology (MIIT) on Monday, seeks to foster high-quality development in the new-energy storage manufacturing.

What is the energy storage plan?
The plan outlined 21 key measures, including scaling up energy storage applications in power generation and grid infrastructure, accelerating technological innovation, and improving standardization. It also emphasized talent development and enhancing international cooperation in the sector.

On Feb. 10, 2025, China"s Ministry of Industry and Information Technology and other seven central government departments jointly announced an action plan for sound development of ...

Mar 6, 2024 · Helena Li, executive president at Trina Solar, discusses the launch of Elementa 2, the group"s new integrated battery storage solution.

Feb 17, 2025 · Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of ...

New Energy Storage Product Launch Plan

Sep 19, 2025 · On September 12, the National Development and Reform Commission and the National Energy Administration released the " New Energy Storage Scale Development Action ...

Sep 12, 2025 · The plan outlined 21 key measures, including scaling up energy storage applications in power generation and grid infrastructure, accelerating technological innovation, ...

Trina Storage launched its new lithium iron phosphate (LFP) utility-scale battery storage cabinet and Sungrow launched its new line of residential battery storage at Intersolar Europe last week.

China | Policy | This document identifies energy storage as a key element of the decarbonisation of the sector and support energy security. It promotes the high-quality and large-scale ...

A product launch plan is a detailed roadmap that guides your team through all the necessary steps to bring a new product to market. It bridges ...

Jul 3, 2025 · Build a product launch strategy that drives impact. Learn steps, tactics, and proven frameworks to launch your product the right way.

Sep 12, 2025 · Announced by the National Development and Reform Commission (NDRC) and the National Energy Administration (NEA), the new plan is expected to drive CNY 250 billion ...

Apr 10, 2024 · CATL "s energy storage battery business generated revenue of RMB 59.9 billion in 2023, contributing 14.94 percent of the total. ...

Oct 24, 2025 · Foreword Stepping up efforts to develop new energy storage technologies is critical in driving renewable energy adoption, achieving China"s 30/60 carbon goals, and ...
